

## Intercept Pharmaceuticals Appoints Jason Campagna as Chief Medical Officer

December 2, 2019

NEW YORK, Dec. 02, 2019 (GLOBE NEWSWIRE) -- Intercept Pharmaceuticals, Inc. (Nasdaq:ICPT), a biopharmaceutical company focused on the development and commercialization of novel therapeutics to treat progressive non-viral liver diseases, today announced the appointment of Jason Campagna, M.D., PhD., as Chief Medical Officer. He will join Intercept's executive leadership team and report directly to Mark Pruzanski, M.D., President and Chief Executive Officer. In his new role, Dr. Campagna will provide strategic medical and scientific oversight for Intercept, and work in close collaboration with the company's Research & Development, Regulatory, Medical Affairs and Safety & Pharmacovigilance departments.

"Jason has proven to be an outstanding leader in his role overseeing our industry-leading NASH clinical development program over the past three years," said Dr. Pruzanski. "I am very pleased to announce Jason's appointment as Chief Medical Officer and look forward to working closely with him as Intercept pursues its goal of bringing the first approved therapy for advanced fibrosis due to NASH to patients in need."

Dr. Campagna has over 15 years of leadership experience in the healthcare industry, including his role as Senior Vice President and NASH Program Leader at Intercept since 2016. Prior to Intercept, Dr. Campagna held a number of roles of increasing responsibility at The Medicines Company from 2010 to 2016, including most recently as Senior Vice President and Health Science Lead of Surgery and Perioperative Care. Earlier in his career Dr. Campagna served as the Chief Medical Quality Officer at Cottage Health System, held faculty appointments at the University of Pennsylvania and Harvard Medical School and was a Fellow at the Kennedy Institute of Ethics at Georgetown University. Dr. Campagna also served as Managing Director of Profibrix B.V., following its acquisition by The Medicines Company in 2013, and as a Director of Annovation Biopharma, Inc. prior to its acquisition by The Medicines Company in 2015. Presently, Dr. Campagna serves on the Steering Committee of the Wallace H. Coulter Center for Translational Research at the University of Miami Miller School of Medicine.

"I am thrilled and humbled to be stepping into this role at a pivotal moment for Intercept," said Dr. Campagna. "With the industry's most advanced clinical development program in fibrosis due to NASH, Intercept has a unique opportunity to bring the first approved treatment to patients in need, while also leading the next wave of innovation in hepatology research and drug development. I look forward to continuing to work with our incredibly talented teams around the world to advance our mission of providing innovative treatments to people living with progressive non-viral liver diseases."

### About Intercept

Intercept is a biopharmaceutical company focused on the development and commercialization of novel therapeutics to treat progressive non-viral liver diseases, including primary biliary cholangitis (PBC) and nonalcoholic steatohepatitis (NASH). Founded in 2002 in New York, Intercept has operations in the United States, Europe and Canada. ### Cautionary Note Regarding Forward-Looking Statements

This press release contains forward-looking statements, including, but not limited to, statements regarding the progress, timing and results of our clinical trials, including our clinical trials for the treatment of nonalcoholic steatohepatitis ("NASH"), the safety and efficacy of our approved product, Ocaliva (obeticholic acid or "OCA") for primary biliary cholangitis ("PBC"), and our product development candidates, including OCA for NASH, the timing and acceptance of our regulatory filings and the potential approval of OCA for NASH or any other indications in addition to PBC, the timing and potential commercial success of OCA and any other product candidates we may develop and our strategy, future operations, future financial position, future revenue, projected costs, financial guidance, prospects, plans, objectives of management and expected market growth.

These statements constitute forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. The words "anticipate," "believe," "estimate," "expect," "intend," "may," "plan," "predict," "project," "target," "potential," "will," "would," "could," "should," "possible," "continue" and similar expressions are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. Readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this release, and we undertake no obligation to update any forward-looking statement except as required by law. These forward-looking statements are based on estimates and assumptions by our management that, although believed to be reasonable, are inherently uncertain and subject to a number of risks. The following represent some, but not necessarily all, of the factors that could cause actual results to differ materially from historical results or those anticipated or predicted by our forward-looking statements: our ability to successfully commercialize Ocaliva for PBC; our ability to maintain our regulatory approval of Ocaliva for PBC in the United States, Europe, Canada, Israel, Australia and other jurisdictions in which we have or may receive marketing authorization; the initiation, timing, cost, conduct, progress and results of our research and development activities, preclinical studies and clinical trials, including any issues, delays or failures in identifying patients, enrolling patients, treating patients, retaining patients, meeting specific endpoints in the jurisdictions in which we intend to seek approval or completing and timely reporting the results of our NASH or PBC clinical trials; our ability to timely and cost-effectively file for and obtain regulatory approval of our product candidates, including OCA for NASH, in the United States, Europe and our other target markets; conditions that may be imposed by regulatory authorities on our marketing approvals for our products and product candidates, such as the need for clinical outcomes data (and not just results based on achievement of a surrogate endpoint), and any related restrictions, limitations and/or warnings contained in the label of any of our products or product candidates; any potential side effects associated with Ocaliva for PBC, OCA for NASH or our other product candidates that could delay or prevent approval, require that an approved product be taken off the market, require the inclusion of safety warnings or precautions, or otherwise limit the sale of such product or product candidate; our ability to establish and maintain relationships with, and the performance of, third-party manufacturers, contract research organizations and other vendors upon whom we are substantially dependent for, among other things, the manufacture and supply of our products, including Ocaliva for PBC and, if approved, OCA for NASH, and our clinical trial activities; our ability to identify, develop and successfully commercialize our products and product candidates, including our ability to timely and successfully launch OCA for NASH, if approved; our ability to obtain and maintain intellectual property protection for our products and product candidates, including our ability to cost-effectively file, prosecute, defend and enforce any patent claims or other intellectual property rights; the size and growth of the

markets for our products and product candidates and our ability to serve those markets; the degree of market acceptance of Ocaliva for PBC and, if approved, OCA for NASH or our other product candidates among physicians, patients and healthcare payors; the availability of adequate coverage and reimbursement from governmental and private healthcare payors for our products, including Ocaliva for PBC and, if approved, OCA for NASH, and our ability to obtain adequate pricing for such products; our ability to establish and maintain effective sales, marketing and distribution capabilities, either directly or through collaborations with third parties; competition from existing drugs or new drugs that become available; our ability to prevent system failures, data breaches or violations of data protection laws; costs and outcomes relating to any disputes, governmental inquiries or investigations, legal proceedings or litigation, including any securities, intellectual property, employment, product liability or other litigation; our collaborators' election to pursue research, development and commercialization activities; our ability to establish and maintain relationships with collaborators with development, regulatory and commercialization expertise; our need for and ability to generate or obtain additional financing; our estimates regarding future expenses, revenues and capital requirements and the accuracy thereof; our use of cash and short-term investments; our ability to acquire, license and invest in businesses, technologies, product candidates and products; our ability to attract and retain key personnel to manage our business effectively; our ability to manage the growth of our operations, infrastructure, personnel, systems and controls; our ability to obtain and maintain adequate insurance coverage; the impact of general U.S. and foreign economic, industry, market, regulatory or political conditions, including the potential impact of Brexit; and the other risks and uncertainties identified in our periodic filings filed with the U.S. Securities and Exchange Commission, including our Annual Report on Form 10-K for the year ended December 31, 2018.
